00:28:37 Victoria Herring: Q - can we set up focus on one machine/device and have it apply to all the others? Not have to set up on each device?

00:29:38 Chita Hunter: Reacted to "Answer- Share across..." with 👍
00:31:32 Melissa Green: Is there a limit on the number of focus modes that can be created? 10 seems to be my limit on iPhone 15 Pro and same on older 13 Pro.

00:51:39 Jean Roy: Replying to "... and included our a..."

00:54:59 Bruce Ellsworth: You turn watch directions features off in the watch app under map settings.

00:55:59 Gill Patten: My old phone is on 15.7.9. Is that why I don't see Focus Filters?

00:58:20 Sheila Bigel: In System filters I don't see the option to Silent phone as I saw on Mike's phone

00:59:11 Melissa Green: Multiple teaching times - how to set multiple calendar events in one Focus Mode instead of multiple Focus Modes.

01:01:41 Gill Patten: My phone seems to have set several focus modes appropriately without my having consciously done anything at all. It's a miracle!

01:02:02 Bruce Ellsworth: Reacted to "My phone seems to ha..." with 😂

01:03:58 Giovanni Brignolo: Can I turn Focus on or Off from my Mac settings
