

00:12:41 nancymcgee: THANK YOU SO MUCH for presenting this

00:13:10 Lynda Farabee: It's important to us!

00:13:53 Gill Patten: Hello from Cheshire, UK!

00:14:14 Stan Isaacs: I noticed the Zoom just updated itself this morning.

00:15:39 Michael Skapik: pls give a step by step instructions to make a new password

00:16:59 Gill Patten: A question for you: Why is it that when opening NMUG - Daily Summary, delivered by email, I can click on topics, messages and any other links and open them without having to log in on my Mac, whereas on my iPhone I always have to log in, and the NMUG password saved in Keychain neither populates the password box, nor lets me enter the site if I copy and paste it manually.

00:18:41 China Campbell: please tell us again how to eliminate some of the abundance of emails sent to members

00:21:03 Linda Sandrich: So this would be a separate password?

00:21:36 Ginger Clark: Yes, understand. Love getting the reasons

00:22:08 Gail Lawley: What is the url????

00:22:14 Linda Sandrich: confirmed.

00:24:45 maureen omeara unit H: If I check "remember me" on my laptop but I travel to another state, does it remember me or does it require log in?

00:24:48 Lynda Farabee: Neat info. Didn't know that.

00:25:20 Gail Lawley: Sorry I missed what to use as user name

00:26:41 Chita Hunter: Replying to "If I check "remember..." Has nothing to do with your travel.

00:26:49 Mary Condon Rohr: How does the "Nickname" affect the password or signing in?

00:30:07 Michael Skapik: does one password work for all functios or do I need more passwords

00:30:33 Chita Hunter: Replying to "does one password wo..."

One password to enter the site is all you need.

00:31:51 Roger D. Parish: If you try to use an iPad to logon to the web site, hold the iPad in landscape mode or you can't see the login button!!

00:34:34 nancymcgee: Is it important to start this question with a TOPIC or can I just start with my question?

00:34:47 Kris Frank: The only stupid question is the one you don't ask

00:35:02 Chita Hunter: Replying to "Is it important to s..."

There needs to be a Discussion Title added.

00:36:28 Stan Isaacs: /////What information should be. Included in question? What Mac machine? Version? How much?

00:36:53 Chita Hunter: Replying to "/////What informatio..."

Be as descriptive as possible, that's how you get the best help.

00:37:08 Charles Anthony: Replying to "/////What informatio..."

00:37:13 Kathy Colville: What is the title for dans ?

00:37:30 Chita Hunter: Replying to "What is the title fo..."

00:37:50 Lynda Farabee: Replying to "What is the title fo..."

No login button for website when on the iPad

Question

00:38:06 John Russell: Could I paste a copied screenshot or do I have to click the camera icon?

00:38:24 Rick Matteson-LIMac: Do tags need a hash?

00:39:06 Rick Matteson-LIMac: Thanks Dan!

00:42:29 Carl Sechrest: Why was Mike's post pinned at the top?

00:44:34 nancymcgee: Please show Dan's topic entry and how to reply

00:45:04 Chita Hunter: Replying to "Please show Dan's to..."

There is a reply button under all posts.

00:47:22 Charles Anthony: Can you subscribe to an individual topic rather than the entire Discussion?

00:49:16 Lisa Salamone: Wait is Malwarebytes unsafe??!!

00:49:45 Mike Kwasniak: Replying to "Wait is Malwarebytes..."

Malwarebytes is VERY safe – the advice was to use it 😊

00:50:02 Gill Patten: Good point, stay subscribed – it's easy enough to delete the daily email when read.

00:50:29 China Campbell: thanks but still need to test myself

00:51:18 Chita Hunter: Reacted to "thanks but still nee..." with 👍

00:51:27 Mike Kwasniak: Reacted to "Good point, stay sub..." with 👍

00:51:34 Mike Kwasniak: Reacted to "thanks but still nee..." with 👍

00:52:46 nancymcgee: So Reply is different than REACT?

00:53:02 Michael Snyder: So you're always replying to the Discussion, and not to the individual Post?

00:53:19 Kimi Okada: What does the "who is allowed to see this field?" option relate to for the Message board? What is the field in the question?

00:54:22 Don Peacock: NMUG page: <https://naplesmug.com/special-member-benefits/> at the bottom reads: "Already a current member? Learn how to setup your account." Suggest adding a link to the appropriate page.

00:54:37 Ward Clark: React is a lot better than a simple "Thank you" reply.

00:54:53 Donna Warnock: Would there be anyway to sort by reactions so that we can scroll posts in most liked order? (Wishful thinking?)

00:55:24 Gill Patten: Can we do without the moving emoji? I find it irritating.

00:57:16 Gill Patten: Why is it that when opening NMUG - Daily Summary, delivered by email, I can click on topics, messages and any other links and open them without having to log in on my Mac, whereas on my iPhone I always have to log in, and the NMUG password saved in Keychain neither populates the password box, nor lets me enter the site if I copy and paste it manually.

00:58:36 Chita Hunter: Reacted to "React is a lot better..." with 👍

01:03:14 Ed Adams: Is there a way where I can get the daily digest where it shows a topic and all the replies in a single group? Seeing a reply without seeing the actual question is difficult for me. BY THE WAY I can not talk as I don't have my mic set up so could you ask the question for me?

01:03:45 Don Peacock: Dan: How can we get an "active" desktop like your one with swimming (dolphins)?

01:04:58 Sandy Fitzig: Will passkeys be implemented for login on the NMUG site?

01:06:52 Ed Adams: I've got my mic working if you want me to say my question

01:07:07 Chita Hunter: Reacted to "I've got my mic work..." with 👍

01:07:40 Roger Johnson: When I click to a NMUG email link on my iPhone it goes to the Groups.io login. How can I change that to the new website?

01:09:00 Roger Bauder: Can you again show how to review previous meeting videos.

01:09:11 nancymcgee: Please don't change that

01:15:31 Kathy Colville: Passkeys not fully baked

01:18:03 Tom Durkin: Midnight in which time zone??

01:18:54 Ward Clark: When you pause Groups.io, will we

still be able to view the board?

01:18:56 Bob McKenzie: ? Is the website discussion section the place for questions about member renewal or account info changes?

01:23:34 Sandy Fitzig: How does the site notify us of renewal and how to renew membership?

01:25:05 Ronald Acheson: I have been able to go to YouTube for past meeting videos. Will this stop?

01:25:16 Lynda Farabee: if one missed it, What is the past way to obtain pdfs from different meetings,

01:25:35 Lynda Farabee: best (not past)

01:26:28 Don Peacock: Correction to my post about link(s) needed at bottom of my mentioned NMUG web page. The second sentence DOES contain a clickable link.

01:26:52 Lynda Farabee: Thanks

01:27:05 Melissa Green: Very helpful Message Board & website review. Thanks team!

01:27:31 Lynda Farabee: You guys need a raise! You've done such a wonderful job. What a task!

01:27:43 Roger Johnson: Dan you have done a fabulous job building this new Club site. Thank you all for doing this special review meeting this morning. It helped understand several items.

01:28:55 Chita Hunter: Reacted to "Thank you to the tea..." with 👍

01:29:25 Rick Matteson-LIMac: Even after following the specific log in directions, "Remember Me" for logging in still doesn't

work for me.

01:29:48 Charles Anthony: When I choose subscribe to calendar ... Apple calendar, it opens Chrome/Google calendar

01:29:53 Sandy Fitzig: Will it have the link on the calendar

01:30:02 Lynda Farabee: Thank you Mike for your patience in handling the message board and groups io

01:35:55 Donna Warnock: Are the old classes published on the new site so we can know what links to request of Eckhart? I forget what was offered in the past and might need it.

01:36:16 Donna Warnock: Replying to "Are the old classes ..."
