

00:07:27 Keith Kaiser, WA0İ-TJT & Deb Kaiser, W0İ-DLK: Good morning from a rainy Kansas City, MO
00:14:21 Lynn Brophy: Hi Chita!
00:14:23 Victoria L. Herring: Hello from Des Moines
00:14:30 Bruce Ellsworth: Good morning!
00:14:31 Jeffrey Gaier: Hello Chita!
00:14:38 Edwin Docherty: Hello from Northern Ireland
00:14:43 Jackie Christopher: Hello from Rock Island IL
00:14:50 Jim Tinsley: Good morning from Santa Barbara.
00:15:08 Keith Kaiser, WA0İ-TJT & Deb Kaiser, W0İ-DLK: Good morning from a rainy Kansas City, MO
00:15:11 Gill Patten: Good afternoon from Cheshire, UK.
00:15:53 Ronald Acheson: I'm from Belfast living in Taunton Somerset. Greetings
00:16:26 Gill Patten: I updated Zoom yesterday and everything seems to have changed!
00:17:28 Dan Wassink: The handout is also on the website
00:18:03 George Brooks: Replying to "The handout is also ..."

Hmm what that url Dan? ;-)

00:20:25 Dan Wassink: On the event page. 😊
00:20:26 Dan Wassink: <https://naplesmug.com/event/understanding-the-attackers/>
00:21:14 Dan Wassink: Replying to "The handout is also ..."

Hi George. Oops, sent it to everyone. 😊

00:21:14 Billy McKee: It has always been out of sync!
00:23:10 Liam Whooley No Video 25 Oct23: Good Morning, from a sunny and 63 degree Boston, Massachusetts, USA
00:24:10 Kathy Colville: Same temp here in Orleans MA
00:29:39 Rob Hoff: Question: Received email from Chase Defender of sorts my info was on the dark web no specific information available, what to do?
00:43:46 Hank Humphrey: who/what app has MFA?
00:45:45 Rob Hoff: What suggestions for iPhone password sine it be make all passwords may be accessible, eg. Apple settings passwords
00:51:18 Rick Kitchen: What is the best AV to use?
00:52:06 Elliott Cobin: For Bart: What are the current issues with Passkeys? Many articles are suggesting that passkeys should be used now. Amazon just enabled passkey support - should we use it?
00:54:11 Rick Kitchen: NMUG, Tidbits
00:54:17 Gill Patten: What about MalwareBytes? Is that an AntiVirus? That does appear to be available for both iMac and iPhone.
00:55:36 K McCulloch: How do you delete an account you are not using?
01:02:39 Dan Wassink: NMUG site is ready for Passkeys, but as Bart said, the interface isn't quite there yet and can be confusing. When it is ready, we will make it available. 😊

01:05:50 Jane Wood: How about Malwarebytes for anti virus software? And is the free version okay?
01:05:50 Keith Kaiser, WA0I-TJT & Deb Kaiser, W0I-DLK: Is MalwareBytes a good thing to keep running on our Macs?
01:06:39 George Brooks: <https://www.intego.com/>
01:06:49 Rick Kitchen: Reacted to "<https://www.intego.c...>" with 👍
01:09:48 Rob Hoff: What about ridding spam email in Mac or iPhone so one doesn't see it in junk or inbox?
01:13:49 Jane Wood: Would you please put the PDF in the chat? Thanks!
01:21:18 Bruce Ellsworth: Gotta run! Great presentation Bart!
01:21:44 Rick Kitchen: I clear all history and quit Safari after every transaction monetary transaction on my Mac. On my iPhone I clear the history inb Safari frequently.
01:22:11 Mike Kwasniak: I've used Intego for years and highly recommend it: <https://www.intego.com/intego-antivirus>
01:22:30 Pat F.: Is the recording of this available to members? I need to watch/listyen again. It was great.
01:22:51 Chita Hunter: Replying to "Is the recording of ..."

Yes. Available to members.

01:23:40 Edie Gralla: Firewall and disk encryption used to make the Mac very slow – is that still true?
01:24:12 Rick Kitchen: I use 1Password with about 400 passwords with a lot of 2FA. I remember 2: my main password and Apple ID. I'll start using Passkeys soon.
01:24:32 Hank Humphrey: I thought passkeys were device dependent-?
01:25:32 Bob Stacy: Brilliant as usual Bart, thanks
01:26:44 Rob Hoff: Amazon on iPad app just now
01:27:29 Rick Kitchen: Reacted to "I've used Intego for..." with 👍
01:28:54 Rob Hoff: I have an Apple iCloud password question
01:29:14 Jeffrey Gaier: Malware Bytes helped me remove MacKeeper from my computer with hidden advertising.
01:29:15 Rick Kitchen: Mac Security and Antivirus Software for Mac OS X – Intego: <https://www.intego.com>
01:30:48 Gill Patten: On looking at Keychain recently, I noticed that some sites had two or three passwords. I'm assuming that could be because I've changed passwords and I need to do some housekeeping, find the active password and delete the others. Shouldn't Keychain have done that automatically, or could there be another reason for the multiple passwords?
01:33:03 John Prescott: Have to dash – Bart thank you for a great thought provoking presentation
01:33:23 Rick Kitchen: Thank you, Bart and NMUG. This was an absolutely wonderful presentation ... so much great info to help us stay

safe in the ever evolving digital world.

01:35:41 Linda McNeil: Thank you for an informative meeting.

01:37:46 Kathy Colville: Such a great meeting
